ST BRIDGET'S PARISH THANKSGIVING OFFERING The parish AGM held on Monday was well attended. There was much interest in the reports from the various working groups. A most significant item was the Parish Accountants Financial Report prompting several questions from interested parishioners. The report forecast an estimated loss of \$14,446 as at the end of December 2009. Weekly giving has been falling off for some time, our last renewal being conducted in November 2005. With your help our task is to correct this position as soon as possible. St Bridget's Parish Finance Committee.
